Culinary tourism involves exploration or travel to remote exotic areas and indulge in consumption of various dishes and local food items to get a feel of the location. It includes unique experiences during the vacation, in which travelers interact with local populations and connect with their core values through food. Culinary travel is a kind of niche tourism, which includes numerous activities such as culinary trials, cooking classes, restaurants, food festival, and others.

Culinary tourism is witnessing exponential growth worldwide, as travelers prefer to visit previously undiscovered destinations. Moreover, with the increase in government initiatives in the form of public and private partnership to promote tourism has led to growth of the tourism industry as a whole and has eventually benefited the culinary tourism industry. However, involvement of high risk of crime happening against tourist, unpredictable weather conditions and natural calamities may hinder the culinary tourism market growth. Irrespective of challenges, increase in social media trend has created a huge culinary tourism market opportunity, as Facebook has become the most preferred social network among travelers to share experiences.

Key findings of the study

The culinary tourism market was valued at \$1,116.7 billion in 2019 and is expected to grow at a CAGR of 16.8% from 2020 to 2027 to reach the market size of \$1,796.5 billion in 2027.

Based on activity type, the cooking classes segment would witness the fastest culinary tourism market growth, registering a CAGR of 17.8% during the forecast period.

In 2019, based on activity type, the food festival segment held the highest share, accounting for nearly half of the culinary tourism market.

In 2019, based on the age group, the generation Y segment was the most prominent segment and is expected to grow at a significant CAGR throughout the forecast period.

OTA segment was the dominant segment in 2019, accounting for a considerable share in the culinary tourism market.
