Smartersign Ennanced Scheduling Tools

creativity, and integration capabilities, particularly for those utilizing digital menu boards in the food and beverage sector.

## "

We continue to enhance the SmarterSign system based on the invaluable input from our users around the world." Gregg Zinn - CEO, SmarterSign New Design Features: Enhanced Animation Engine

SmarterSign's Digital Signage Platform now boasts an enhanced animation engine, setting a new standard for visual storytelling and engagement. The upgraded engine supports a wider range of animation styles, from subtle transitions to dynamic motion graphics, enabling businesses to create captivating content that grabs attention and communicates effectively. This advancement

empowers users to design stunning digital menu boards that not only display menu items but also enhance the overall dining experience with eye-catching visuals and animations.

Enhanced Scheduling Tools: Advanced Scheduling and Flexible Menu Cycle Scheduling

The latest update introduces advanced scheduling tools that provide users with greater control and precision over their digital signage content. The advanced scheduling feature allows businesses to plan and execute their content strategy with pinpoint accuracy, ensuring that the right message is displayed at the right time. Whether it's a limited-time offer or a seasonal promotion, the enhanced scheduling tools make it effortless to manage and update content.

Moreover, the flexible menu cycle scheduling feature is a game-changer for businesses using digital menu boards. This tool allows for seamless rotation and customization of menu items based on specific times of the day or week. For example, breakfast menus can transition smoothly to lunch and dinner offerings without manual intervention, ensuring that customers always see the most relevant options.

Enhanced Integrations: POS System Integration with Square and Clover

Recognizing the importance of streamlined operations, SmarterSign has expanded its integration capabilities with leading POS systems such as Square and Clover. This enhancement allows businesses to

POS Integration with Square and Clove POS Systems

sync their digital menu boards directly with their POS systems, ensuring real-time updates and consistency between the menu displayed on the screen and the items available for order.

The integration with Square and Clover not only simplifies the management of digital menu boards but also enhances the customer experience by minimizing discrepancies and ensuring that all menu changes are reflected instantaneously. This seamless connection helps businesses operate more efficiently and provides customers with accurate and up-to-date information.

## About SmarterSign

SmarterSign has been a trusted provider of high-quality digital signage solutions for nearly 18 years, with significant expertise in digital menu boards. Their cutting-edge platform is designed to put business owners in complete control of their digital signage needs.
