

# Food Processing Equipment Market High Demand, Recent Trends, Future Growth, Top Manufacturers and Outlook 2032

*Rising demand for processed and packaged food products is a major factor driving market revenue growth*

VANCOUVER, BRITISH COLUMBIA, CANADA, June 25, 2024 /EINPresswire.com/ -- The global [food processing equipment market](#) size is expected to reach USD 75.56 Billion in 2032 and register a revenue CAGR of 4.1% during the forecast period, according to the latest analysis by Emergen Research. Rising demand for processed and packaged food products is a major factor driving the market revenue growth. Food processing equipment increases efficiency of food processing. Processing equipment is designed to meet hygiene and safety standards. For instance, it reduces the risk of contamination and increases the shelf-life of food products, hence driving market revenue growth. Moreover, rising demand for custom-made food processing equipment is another factor driving revenue growth of the market.

Growing technological advancements are major factors contributing to the market revenue growth. Food processing equipment is used to increase quality of their product. Food equipment makers creating devices that can process foods faster while also being more energy and cost-efficient. For instance, bakers across the globe are troubled by issues such as hole creation during improper bread fermentation.

The report on the global Food Processing Equipment market discusses in depth the current and emerging trends of the industry and discusses in detail the advancements in the technological and product sector. The report talks about the current and emerging and disruptive technologies in the healthcare sector that is impacting the market growth. Improvements in service quality, automation, increasing focus on patient-centric approaches, and rapid adoption of telehealth, especially amid the COVID-19 pandemic, have accelerated the market growth.

Food Processing Equipment Market Size – USD 50.80 Billion in 2022, Market Growth – at a CAGR of 4.1%, Market Trends – Growing technological advancements in food processing equipment sector”

*Emergen Research*

Key insights presented in the report:

Market revenue shares by major business players, by type, by application, and market scope of global Food Processing Equipment market

Sales revenue by key players and new entrants

Competitive analysis of key players, including aspects such as company overview, product or services specification, vendors, and buyers

Recent mergers, acquisitions, product launches, recent investments, and joint ventures

Regional analysis to provide insight into recent trends and opportunities

The report provides comprehensive details about the market with respect to overall revenue, sales and consumption, pricing trends, gross margins, growth rate, and market size. Additionally, the report also covers details of the company, such as sales and distribution area, product portfolios, specifications, and others.

The report also discusses key players involved in the market, such as

GEA Group Aktiengesellschaft, The Middleby Corporation, Tetra Laval, ALFA LAVAL, Kronos AG, JBT, SPX Flow, FENCO Food Machinery s.r.l, TNA Australia Pty Limited, WELBILT INC.

as well as new entrants in the market. The competitive analysis also includes regional analysis of major geographical regions. The report covers regions such as North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

For the purpose of this report, Emergen Research has segmented the global food processing equipment market on the basis of mode of operation, type of equipment, application, technology, end-use, distribution channel, and region:

Mode of Operation Outlook (Revenue, USD Billion; 2019–2032)

Automatic

Semi-Automatic

Manual

Type of Equipment Outlook (Revenue, USD Billion; 2019–2032)

Pre-Processing Equipment

Processing Equipment

Packaging Equipment

Refrigeration and Freezing Equipment

Cooking and Heating Equipment

Other Equipment

Application Outlook (Revenue, USD Billion; 2019–2032)

Bakery & Confectionery

Meat and Poultry

Dairy Products

Beverages

Fruits and Vegetables

Fish and Seafood

Frozen Foods

Cereal and Grains

Others

Technology Outlook (Revenue, USD Billion; 2019–2032)

Mechanical Processing Equipment

Thermal Processing Equipment

Electromagnetic Processing Equipment

Others

End-Use Outlook (Revenue, USD Billion; 2019–2032)

Food Manufacturers

Foodservice Providers

Retailers

Others

Distribution Channel Outlook (Revenue, USD Billion; 2019–2032)

Direct Sales

Distributors

Online Retailers

The report demonstrates the progress and advancement achieved by the global Food Processing Equipment market, including the historical analysis and progress through forecast years. The report provides valuable insights to the stakeholders, investors, product managers, marketing executives, and other industry professionals. The report provides an accurate estimation by applying SWOT analysis and Porter's Five Forces analysis. The report focuses on current and future market growth, technological advancements, volume, raw materials, and profiles of the key companies involved in the market.

Key Benefits of Buying the Global Food Processing Equipment Report:

Comprehensive analysis of the changing competitive landscape

Assists in decision making processes for the businesses along with detailed strategic planning methodologies

The report offers an 8-year forecast and assessment of the Global Food Processing Equipment Market

Helps in understanding the key product segments and their estimated growth rate

In-depth analysis of market drivers, restraints, trends, and opportunities

Comprehensive regional analysis of the Global Food Processing Equipment Market

Extensive profiling of the key stakeholders of the business sphere

Detailed analysis of the factors influencing the growth of the Global Food Processing Equipment Market

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across

demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
