The Las Vegas training center will feature experiential training ubiquitous with all other Aircare FACTS Training locations including the use of full-motion cabin simulators, live firefighting exercises, hypoxia simulation, and water survival drills.

Aircare FACTS Training combines online self-study modules, interactive classroom discussions, and intensive hands-on practical exercises to maximize knowledge retention and emergency response skills.

Often considered the industry standard for emergency procedures training, Aircare’s Las Vegas

location will continue the tradition of Aircare FACTS Training, offering innovative training techniques and state-of-the-art equipment to ensure emergency preparedness. [One Day Pilot courses](#) will be available weekly, while Open Enrollment Flight Attendant courses will be available 1-2 times per month.

This expansion will provide increased training opportunities for both local professionals and those traveling to Las Vegas. By offering flexible scheduling, on-demand training options, and comprehensive programs, Aircare International is committed to enhancing the safety and proficiency of aviation professionals.
