

Intestinal Pseudo Obstruction Treatment Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Intestinal Pseudo Obstruction Treatment Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, June 26, 2024 /EINPresswire.com/ -- The intestinal pseudo-obstruction treatment market size has shown robust growth in recent years, increasing from \$23.63 billion in 2023

to \$24.98 billion in 2024, at a compound annual growth rate (CAGR) of 5.7%. It will grow to \$30.87 billion in 2028 at a compound annual growth rate (CAGR) of 5.4%. This growth in the historic period can be attributed to factors such as the rise in chronic respiratory diseases, patient preference for convenient self-administration methods, and the expansion of market applications.

Major Players and Market Trends

Key companies in the intestinal pseudo-obstruction treatment market, including Pfizer Inc., Johnson & Johnson, and AbbVie Inc., are focusing on developing innovative drug therapies. For example, Ardelyx Inc. introduced IBSRELA, an NHE3 inhibitor treatment for irritable bowel

syndrome with constipation, which shows promise in improving gastrointestinal motility. Innovations in formulation technologies and a focus on pediatric and geriatric applications are major trends anticipated in the forecast period. The market is also witnessing advancements in self-administration devices and the incorporation of biologics and peptides to enhance treatment efficacy.

Segments:

The intestinal pseudo obstruction treatment market covered in this report is segmented –

- 1) By Condition: Acute, Chronic
- 2) By Treatment: Medication, Surgery, Diet, Other Treatment
- 3) By Diagnosis: Physical Examination, Biopsy, Blood Test, Gastric Emptying Tests, Imaging Tests, Other Diagnosis
- 4) By End User: Hospitals And Clinics, Ambulatory Care Centers, Other End Users

Geographical Insights: North America Leads the Market

North America dominated the intestinal pseudo-obstruction treatment market in 2023, owing to advanced healthcare infrastructure and high prevalence of gastrointestinal diseases.
