Strong Future Growth Anticipated

The urolithiasis management devices market is projected to grow strongly, reaching \$2.05 billion in 2028 at a compound annual growth rate (CAGR) of 6.6%. The growth in the forecast period can be attributed to increasing awareness about minimally invasive procedures, growing incidence and recurrence of urolithiasis, continued

advancements in endoscopic procedures, shift towards outpatient treatments due to cost-effectiveness and reduced hospital stays, and rising patient preference for non-invasive treatment options.

Growth driver of the urolithiasis management devices market

The rising prevalence of kidney diseases is expected to propel the growth of the urolithiasis management devices market going forward. Kidney disease, also known as renal disease or

nephropathy, refers to a condition in which the kidneys are damaged and their function is impaired. The factors driving the rising prevalence of kidney diseases include increased consumption of animal proteins, a lack of physical activity, and rising obesity rates. Urolithiasis management devices enable healthcare professionals to perform precise interventions, relieve obstruction, prevent complications, and improve patient outcomes in cases of urolithiasis-related kidney issues.

Major Players and Market Trends

Key players in the urolithiasis management devices market include Medtronic plc, Siemens Healthineers AG, Boston Scientific Corporation, Olympus Corporation, NOVAMEDTEK, Coloplast Group.

Major companies operating in the urolithiasis management devices market are developing innovative, technology-based products, such as thulium fiber laser (TFL) technology-based laser machines, to gain a competitive edge in the market. Thulium Fiber Laser (TFL) technology represents an advanced laser system used in the management and treatment of urolithiasis, or urinary stones.

Segments:

- 1) By Product Type: Lithotripters, Ureteroscopes
- 2) By Treatment Type: Extracorporeal Shock Wave Lithotripsy (ESWL), Intracorporeal Lithotripsy, Percutaneous Nephrolithotomy, Other Treatment Types
- 3) By End Users: Hospitals, Clinics, Ambulatory Surgical Centers

Geographical Insights: North America Leading the Market

North America was the largest region in the urolithiasis management devices market in 2023. Asia-Pacific is expected to be the fastest-growing region during the forecast period, driven by expanding healthcare facilities and increasing awareness of the benefits of urolithiasis management devices.

Urolithiasis Management Devices Market Definition

Urolithiasis management devices refer to medical tools and devices used in the diagnosis, treatment, and management of urolithiasis, which is the formation of stones (calculi) in the urinary tract. They are primarily used for retrieving, breaking, or aiding the passage of kidney stones, providing minimally invasive treatment options. These devices aim to address the challenges posed by kidney stones by offering efficient and less intrusive solutions for their management.

[Urolithiasis Management Devices Global Market Report 2024](#) from TBRC covers the following

information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Urolithiasis Management Devices Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on non-pvc iv bags market size, non-pvc iv bags market drivers and trends, non-pvc iv bags market major players, competitors' revenues, market positioning, and market growth across geographies. The non-pvc iv bags market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
