Migraine Drugs Global Market Report  
2024 – Market Size, Trends, And Global  
Forecast 2024-2033*

LONDON, GREATER LONDON, UK, June 26, 2024 /EINPresswire.com/ -- The migraine drugs market has witnessed robust growth in recent years, with the market size projected to increase from

\$5 billion in 2023 to \$5.38 billion in 2024, reflecting a compound annual growth rate (CAGR) of 7.5%. It will grow to \$6.84 billion in 2028 at a compound annual growth rate (CAGR) of 6.2%. This growth can be attributed to advancements in drug formulations, increased awareness and diagnosis, stress-related lifestyle factors, the expansion of generic drugs, and the emergence of CGRP inhibitors.

## Growing Demand Fueled by Female Population

The increasing prevalence of migraines among the female population is a significant driver for market growth. Genetic, hormonal, and environmental factors contribute to higher migraine rates in females compared to males. The global female population, estimated at 4.00 billion in 2022 according to the United Nations, is expected to drive market expansion as healthcare solutions cater specifically

to this demographic.
