

Combining AI-driven Cybersecurity Solutions with Advanced Threat Intelligence

Priam AI and RST Cloud are excited to announce a strategic technological partnership

SYDNEY, AUSTRALIA, June 26, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- Priam AI, a

leader in AI-driven cybersecurity solutions, and RST Cloud, an Australian threat intelligence provider, are excited to announce a strategic technological partnership. This collaboration will integrate RST Cloud's extensive threat intelligence data into the Priam AI platform, enhancing its capabilities to deliver a comprehensive and scalable Security Operations Center (SOC).

“The integration of RST Cloud’s data, such as threat risk score, threat context, and more, will significantly enrich Priam AI’s AVA platform. This enhancement empowers organisations to sustain their cybersecurity operations with scalable, cost-effective, and efficient solutions against evolving cyber threats,” says Paolo Di Prodi, Co-Founder of Priam AI.

Priam AI*

“The integration of our services, like [RST Threat Feed, IoC Lookup, and Noise Control](#), will bring additional tools to the Priam AI platform to increase platform efficiency and reduce alert fatigue. This joint solution can help reduce human errors, simplify incident triage complexity, and address the security talent shortage,” says Yury Sergeev, Founder of RST Cloud.

[About Priam AI:](#)

Priam AI is a cutting-edge cybersecurity platform that leverages artificial intelligence to act as a virtual analyst. By automating threat detection and response, Priam AI enhances the efficiency

and effectiveness of cybersecurity operations, ensuring robust protection against cyber threats.

[About RST Cloud:](#)

RST Cloud is a leading Australian cybersecurity provider specialising in advanced threat intelligence. By offering detailed threat insights through innovative and automated solutions, RST Cloud makes high-quality Cyber Threat Intelligence accessible to businesses worldwide, driving the global standard for digital security.
