

Dr. Snyder Builds New Dental Teaching Facility with The Latest Technology in the Industry

Dr. Snyder's brainchild will allow dental patients to be treated with the newest technology in the industry even before it launches publicly.

LAS VEGAS, NV, UNITED STATES, June 26, 2024 /EINPresswire.com/ -- Dr. Todd C. Snyder, 77th Fellowed Cosmetic Dentist with/ the American Academy of Cosmetic Dentistry, international author and lecturer, and professional race car driver, takes on a new project after successfully helping dentists build their practice from the

ground up. Now, he has the answer to a pressing dilemma among the dentists of today – the need to modernize dental curricula. Armed with the knowledge and experience of running a dental facility, Dr. Snyder knows what is truly the best for his patients: a dentist equipped with the latest technology in the industry. After co-developing and co-directing the first-ever two-year post-graduate program in Cosmetic and Restorative Dentistry at the University of California, Los Angeles, as well as his online education platform, www.legion.dentist, he now launches his own revolutionary new dental teaching facility, Infinix, in Las Vegas, Nevada.

According to Dr. Snyder, one of the key issues facing dental education is the lack of emphasis on modern technology, occlusion and comprehensive cosmetic restorative dentistry. This oversight not only hinders dentist's and student's ability to provide optimal care but also perpetuates disparities in treatment outcomes among dental offices.

Dr. Snyder's vision for the future of dentistry extends beyond traditional classroom settings. His revolutionary dental teaching facility, equipped with the latest technology and offering both in-person lectures and over the shoulder learning as well as interactive live online and recorded learning opportunities, represents a paradigm shift in dental education. By providing students with access to cutting-edge tools and real-time instruction from experts like Dr. Snyder, this facility holds the potential to shape the next generation of dental professionals.

As a Fellowed Cosmetic Dentist with the American Academy of Cosmetic Dentistry, the American Society for Dental Aesthetics and a Diplomat of the American Board of Dental Aesthetics, Dr. Snyder's credentials speak volumes about his commitment to excellence in dentistry. His dedication to conservative, quality-driven care sets a standard for the industry and inspires others to strive for continuous improvement.

For Dr. Snyder, one thing is clear: the future of dentistry lies in innovation, collaboration, and a steadfast commitment to education. Through initiatives like Dr. Snyder's dental teaching facility, the industry can cultivate a new generation of dental professionals equipped with the skills and knowledge needed to deliver exceptional care to patients worldwide.

For individuals seeking transformative cosmetic dental solutions, Dr. Snyder offers complimentary consultations to explore treatment options and address any concerns. With over 30 years of experience and a passion for creating beautiful smiles, Dr. Snyder is dedicated to helping patients achieve their aesthetic goals while maintaining the highest standards of care.
