

Aida Sekkei Precut by Nobuaki Miyashita Wins Gold in A' Architecture Awards

Innovative Timber Processing Plant Design Recognized for Excellence in Architecture, Building and Structure Category

COMO, CO, ITALY, June 26, 2024 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [architecture](#) design, has announced Aida Sekkei Precut by [Nobuaki Miyashita](#) as the Gold winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the exceptional design and innovative approach of the timber processing plant project.

Aida Sekkei Precut's win is significant for the architecture industry, as it showcases a cost-effective and inventive solution for achieving large spans in wooden structures. By combining small-section studs into truss structures, the design demonstrates the potential for new approaches in medium to large-scale wooden construction, benefiting both the industry and its clients.

The award-winning design embodies the essence of the timber processing series, with its impressive 100-meter-long viewing aisle encased in a random stripe wooden shell. The cantilevered aisle appears to float from the factory building wall, creating a sense of acceleration and speed that symbolizes Aida Sekkei's evolution towards the future. The precise and aesthetically pleasing fabrication of columns and beams inspired the design concept, capturing the dynamism observed in the factory.

This recognition from the A' Architecture, Building and Structure Design Award serves as motivation for Nobuaki Miyashita and the Aida Sekkei team to continue pushing the boundaries

Aida Sekkei Precut

of design and innovation in their future projects. The award highlights the significance of the design's unique features and its potential to influence industry standards and practices.

About Aida Sekkei Co., Ltd.

Aida Sekkei is a homebuilder established in 1981 in Saitama Prefecture, Japan. Adopting the traditional Japanese wooden post-and-beam construction method, the company offers fully customized homes and supplies approximately 3,000 homes annually. With over 1,100 employees, Aida Sekkei was listed on the Tokyo Stock Exchange in 2021. The company operates its own precut factory and leverages a separate ordering system and scale advantages to drastically reduce construction costs, providing low-cost housing.

About Mr Studio

Mr Studio is an architectural firm based in Japan that designs various types of buildings, including residential homes, commercial facilities, hotels, offices, factories, and schools. The firm aims to provide distinctive added value to spaces, architecture, and landscapes through concept making that reveals the potential needs and identity of projects, along with innovative design. Mr Studio's field spans a variety of building types, ranging from interior design to large-scale urban development. In each project, the firm carefully interprets the unique context of the site and strives for site-specific architecture that can only exist in that particular place.

About Golden A' Design Award

The Gold A' Design Award in the Architecture, Building and Structure Design category recognizes designs that demonstrate a high level of innovation and significant impact. Winners are selected through a rigorous blind peer-review process based on pre-established evaluation criteria by a panel of design professionals, industry experts, journalists, and academics. The award acknowledges designs that push boundaries, deliver exceptional solutions, and serve as benchmarks for excellence in the field. Winning the Golden A' Design Award is a prestigious recognition of architectural design excellence, innovation, and the ability to advance the industry.

About A' Design Award

The A' Architecture, Building and Structure Design Award is a highly esteemed international design competition that recognizes superior architecture and structure design. Welcoming a diverse range of participants, from star architects to leading construction companies, the award provides a platform to showcase design vision and gain global recognition. Now in its 16th year, the A' Design Award is driven by a philanthropic mission to enhance society through the power of good design. By celebrating remarkable achievements and promoting pioneering designs, the award aims to inspire and advance the global community.
