Market Size and Growth

The per diem nurse staffing market is projected to grow from \$8.36 billion in 2023 to \$8.92 billion in 2024, at a CAGR of 6.7%. The market's growth in recent years can be attributed to fluctuating patient census, specialized skill requirements, and temporary patient care needs. Despite challenges, the market is expected to continue growing robustly, reaching \$11.1 billion by 2028, with a CAGR of

5.6%.

Drivers of Market Growth

The strong growth forecasted for the per diem nurse staffing market is driven by factors such as healthcare resilience, pandemic preparedness, telehealth expansion, and the shift towards home-based care. The increasing focus on population health management also contributes to the market's expansion.
