

Amplifying Digital Presence in the Construction Industry - June 27, 2024

Peer-to-peer digital content sharing for construction and building professionals

SUNDRE, ALBERTA, CANADA, June 27, 2024 /EINPresswire.com/ -- Since its establishment in 2003, Construction Links Network has emerged as a premier news and information hub in the construction sector. With a commitment to enhancing the digital presence and search engine visibility of its members, Construction Links Network has become an indispensable resource for a wide array of professionals. This includes construction managers, contractors, developers, building and property managers, architects, designers, engineers, and government officials.

As a dynamic hub for digital content dissemination, Construction Links Network offers its members diverse engagement opportunities through news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

This week's featured video by MegaBuilds examines the ambitious Legends Tower project in Oklahoma City's Bricktown entertainment district. Planned by Matteson Capital and architecture firm AO, this 134-story, 1,907-foot skyscraper aims to become the tallest building in the U.S., surpassing One World Trade Center. Initial proposals emerged in December 2023, with a revised plan revealed in January 2024, emphasizing Oklahoma City's economic growth potential. The \$1.5 billion project secured financing by March 2024 and received zoning approval in June 2024, with only digital signage approval pending. Construction, starting with two towers and a Dream Hotel, is set to begin this summer.
