EL SEGUNDO, CA, USA, June 27, 2024 /EINPresswire.com/ -- [eSalon](#), the first and only truly custom home hair color company, has curated this season's [summer hair color trends](#) for the sunny days ahead. eSalon's team of professional colorists predicted five vacation-ready hair colors that will be trending all season long. From softening the hair color shade, adding subtle dimension, or going for a completely new hue, eSalon reveals the top summer hair colors trends to transform hair from lounging poolside to a tropical destination.

SUNNY CINNAMON

For those who love a rich and warm look, Sunny Cinnamon is a sun swept shade that combines the depth of burnt auburn with the brightness of copper, giving hair a naturally radiant finish.

BLENDED BRUNETTE

Blended Brunette is all about seamless transitions and natural highlights. This color merges various shades of brown to create a multidimensional, sunlit effect. This shade is optimal for brunettes looking to add a bit of sparkle and dimension without going too light. The result is a nuanced color fit for beachside brunch with the girls.

PEACH BLONDE

Juicy and sweet, Peach Blonde is a playful blend of soft peach tones and a classic blonde base, providing a fresh and fruity hue. This shade is ideal for anyone looking to experiment with a

lighter, more whimsical color.

CHILLED CHARDONNAY

Inspired by the creamy, buttery qualities of a glass of Chardonnay, this hair color is a sophisticated take on the everyday blonde. Chilled Chardonnay features soft blonde highlights with just a hint of gold, creating an elegant and laidback look for a refined, yet trendy summer look. Cheers to that!

TOASTED COPPER

Toasted Copper breathes new life into a traditional red hair color with subtle highlights, adding a warm and sunkissed glow. This shade blends rich, earthy tones, giving a vibrant yet natural appearance. For those looking to enhance their hair with a hint of radiant warmth, this shade captures the energy of summer.
