Respules Global Market Report 2024 –
Market Size, Trends, And Global Forecast
2024-2033*

LONDON, GREATER LONDON, UK, June 28, 2024 /EINPresswire.com/ -- The global respules market, also known as respiratory medications, has shown robust growth in recent years, driven

by advancements in drug formulations, biologic therapies, and the adoption of smart inhalers. The market size is projected to grow from \$1.69 billion in 2023 to \$1.83 billion in 2024 at a compound annual growth rate (CAGR) of 7.9%. This growth can be attributed to factors such as physician recommendations, improved healthcare access, and increased awareness through clinical research and development.

Rising Incidence of Respiratory Disorders Fuels Market Growth

The rise in respiratory disorders, including asthma and chronic obstructive pulmonary disease (COPD), is a significant driver for the respules market. These medications effectively manage symptoms such as

coughing, wheezing, and breathlessness. According to the Australian Institute of Health and Welfare, respiratory conditions accounted for a substantial portion of deaths in Australia, underscoring the critical need for effective respiratory treatments.
