

Tree In A Bottle by Niu Rui and Wang Yubo Wins Silver in A' Packaging Design Awards

Niu Rui and Wang Yubo's innovative packaging design recognized for its eco-friendly approach and creative use of biodegradable materials

COMO, CO, ITALY, June 28, 2024 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [packaging design](#), has announced that the "Tree In A Bottle" packaging design by [Niu Rui and Wang Yubo](#) has been awarded the prestigious Silver A' Design Award in the Packaging Design category. This award is a testament to the exceptional design and innovation showcased in the "Tree In A Bottle" project, which stands out for its commitment to sustainability and creative use of biodegradable materials.

The "Tree In A Bottle" packaging design is highly relevant to current trends and needs within the packaging industry, as it prioritizes eco-friendliness and sustainability. By using fully biodegradable packaging materials and incorporating a seed paper label that can give rise to new life after use, this design aligns with the growing demand for environmentally conscious packaging solutions. The practical benefits of this innovative approach extend to users, the industry, and other stakeholders, as it promotes a more sustainable future without compromising on functionality or aesthetics.

What sets the "Tree In A Bottle" design apart is its unique combination of eco-friendly materials and creative elements. The packaging is crafted using PMU inorganic biodegradable material technology, ensuring that it naturally decomposes into fertilizer without leaving any negative impact on the environment. The label, made from special plant seed paper, adds an interactive

and educational aspect to the design, as users can directly contribute to the growth of new life by planting the label after use. The embossed design, inspired by the endangered toucans of the South American Amazon rainforest, not only showcases the beauty of these species but also raises awareness about the importance of environmental conservation.

The recognition of the "Tree In A Bottle" design with the Silver A' Design Award has significant implications for the future of packaging design. It serves as an inspiration for brands and designers to prioritize sustainability and explore innovative materials and techniques that minimize environmental impact. By setting a high standard for eco-friendly packaging, this award-winning design encourages the industry to adopt more sustainable practices and pushes the boundaries of what is possible in terms of combining functionality, aesthetics, and environmental responsibility.

Team Members:

The "Tree In A Bottle" was brought to life through the collaborative efforts of a talented team. NIU RUI served as the Creative Director, providing the overall vision and direction for the project. FANG RUI SEN played a crucial role in the planning phase, ensuring that the design aligned with the brand's goals and target audience. WANG YU BO, as the Art Designer, was responsible for the visual elements and the creative execution of the design. Together, Niu Rui and Wang Yubo, along with their team, have created a packaging design that is both visually striking and environmentally conscious.

About MC Brand:

MC Brand is a homegrown Chinese 4A advertising agency founded by visionary Niu Rui. With a commitment to being a long-term and deeply involved partner in their clients' brand journeys, MC Brand offers a comprehensive suite of services, including brand strategy, marketing planning, and creative design. The company's flagship projects, such as the Year of the Tiger wine design and the Peacock wine design, have resonated with the market and garnered numerous international awards, testament to their professional excellence and drive for innovation.

About Silver A' Design Award:

The Silver A' Design Award recognizes top-tier designs that demonstrate excellence, innovation, and a deep understanding of the packaging industry. Recipients are acknowledged for their contribution to raising industry standards and advancing the practice of design through their highly functional and visually appealing creations. The rigorous selection process involves blind peer review by an expert jury panel of design professionals, packaging industry experts, journalists, and academics, ensuring that only the most deserving projects are honored with this prestigious award.

About A' Design Award:

The A' Design Award is an international and juried design competition that has been recognizing and promoting superior products and projects since 2008. Open to entries from all countries and across all industries, the A' Design Award aims to make the world a better place by showcasing pioneering designs that positively impact the global community. Through a rigorous evaluation process conducted by an influential and expert jury panel, the competition celebrates remarkable achievements and drives forward the cycle of inspiration and advancement in design.
