

# Global Nutraceutical Contract Manufacturing Services Market Major Trends And Growth Drivers

*The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033*

LONDON, GREATER LONDON , UK, June 28, 2024 /EINPresswire.com/ -- The nutraceutical contract manufacturing services market size has witnessed substantial growth, expanding from \$154.67 billion in 2023 to an estimated

\$174.09 billion in 2024, marking a compound annual growth rate (CAGR) of 12.6%. This growth is driven by heightened consumer health awareness, increased demand for preventive healthcare solutions, regulatory compliance requirements, customization preferences among consumers, and the burgeoning e-commerce platforms facilitating product accessibility.

**Rising Demand for Customized Nutraceutical Solutions**  
The forecasted growth in the nutraceutical contract manufacturing services market, expected to reach \$281.76 billion by 2028 at a CAGR of 12.8%, is attributed to substantial investments in research and development, the aging global population's focus on healthy aging, growing consumer preference for clean label products, and the

ongoing digital transformation. Key trends shaping the market include a strong emphasis on immune health, the rise of plant-based and vegan formulations, increasing interest in CBD and hemp-derived products, integration of e-commerce channels, and the adoption of AI-driven formulation technologies.
