### About Cenosco

Cenosco is the leading provider of Asset Integrity Management (AIM) software. Companies operating in asset-heavy industries are prone to equipment failure, unplanned shutdowns, deferred production, and many significant health and safety hazards. These dangerous and costly incidents arise due to inefficient asset integrity management. Their solutions safeguard integrity, reliability, and instrumentation safety in asset-intensive industries. With IMS, you can calculate optimal intervention periods and layout efficient maintenance strategies. Today, Cenosco's IMS Suite is used around the globe in over 40 countries, with over 11,000 active users and more than 200 assets deployed.
