

Genu Recurvatum Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON, UK, July 2, 2024 /EINPresswire.com/ -- The [genu recurvatum market](#) has experienced robust growth recently, expanding from \$7.12 billion in 2023 to \$7.57

billion in 2024 at a compound annual growth rate (CAGR) of 6.3%. This growth is attributed to the increasing prevalence of orthopedic conditions, an aging population, trauma, accidents, limited awareness, and early diagnosis. The market is projected to grow to \$9.71 billion by 2028, at a CAGR of 6.4%, driven by rising awareness and education, advancements in treatment options, sports injury prevention and management, and rehabilitation programs.

Increasing Prevalence of Orthopedic Disorders Drives
Market Growth

The increasing prevalence of orthopedic disorders is expected to propel the growth of the genu recurvatum market. Orthopedic disorders affect the musculoskeletal

system, causing knee pain and leading to conditions like knee osteoarthritis. The growing number of orthopedic conditions will demand treatment, supporting market growth. For instance, in February 2022, the Office of Disease Prevention and Health Promotion projected that by 2040, 78.4 million adults in the U.S. will have arthritis. Similarly, in 2021, Versus Arthritis reported that over 20 million people in the UK had musculoskeletal conditions. These increasing cases of orthopedic disorders are driving the growth of the genu recurvatum market.
