# AI in Video Surveillance Market Massive Growth opportunity Ahead | Hikvision, Avigilon, Canon

*Stay up to date with AI in Video Surveillance Market research offered by HTF MI. Check how key trends and emerging drivers are shaping this industry growth.*

PUNE, MAHARASHTRA, INDIA, July 2, 2024 /EINPresswire.com/ -- The Latest Study Published by HTF MI Research on the "AI in Video Surveillance Market" evaluates market size, trend and forecast to 2030. The AI in Video Surveillance market study includes significant research data and evidences to be a practical resource document

AI in Video Surveillance

for managers and analysts is, industry experts and other key people to have an easily accessible and self-analysed study to help understand market trends, growth drivers, opportunities and upcoming challenges as well as information about the competitors. Some of the Major Companies covered in this Research are Hikvision (China), Dahua Technology (China), Bosch Security Systems (Germany), Axis Communications (Sweden), Honeywell Security Group (United States), Hanwha Techwin (South Korea), Avigilon (Canada), FLIR Systems (United States), Pelco by Schneider Electric (United States), VIVOTEK (Taiwan), Panasonic System Solutions (Japan), Cisco Systems (United States), IBM (United States), NEC Corporation (Japan), Canon Inc. (Japan), Genetec (Canada), BriefCam (Israel).

According to HTF Market Intelligence, the Global AI in Video Surveillance market to witness a CAGR of 24.1% during forecast period of 2024-2030. Global AI in Video Surveillance Market Breakdown by Component (Hardware (AI Cameras, Monitors, Storage Devices, Servers), Software (AI Video Management Software, AI-Driven Video Analytics), Service (VSaaS)) by Deployment Mode (On-premises, Cloud-based) by Verticals (Commercial, Residential, Infrastructure, Military & Defense, Public Facility, Industrial) and by Geography (North America, South America, Europe, Asia Pacific, MEA). The report includes historic market data from 2019 to 2023E. Currently, market value is pegged at USD 4.1 Billion.

The AI in Video Surveillance Market refers to the industry segment focused on integrating artificial intelligence (AI) technologies into video surveillance systems. These AI-enhanced systems leverage machine learning, computer vision, and advanced analytics to enhance the capabilities of traditional video surveillance, providing more accurate, efficient, and intelligent monitoring and security solutions.

Market Drivers
• The increasing need for enhanced security measures across various sectors
• The scalability and adaptability of AI-driven surveillance systems make them suitable for diverse environments

Opportunities
• The integration of AI with IoT devices and edge computing, enabling real-time processing and analysis of video data closer to the source
• The demand for intelligent surveillance solutions is increasing across sectors such as retail, healthcare, and transportation

Major Highlights of the AI in Video Surveillance Market report released by HTF MI

Global AI in Video Surveillance Market Breakdown by Component (Hardware (AI Cameras, Monitors, Storage Devices, Servers), Software (AI Video Management Software, AI-Driven Video Analytics), Service (VSaaS)) by Deployment Mode (On-premises, Cloud-based) by Verticals (Commercial, Residential, Infrastructure, Military & Defense, Public Facility, Industrial) and by Geography (North America, South America, Europe, Asia Pacific, MEA)

Geographically, the detailed analysis of consumption, revenue, market share, and growth rate of the following regions:

• The Middle East and Africa (South Africa, Saudi Arabia, UAE, Israel, Egypt, etc.)
• North America (United States, Mexico & Canada)
• South America (Brazil, Venezuela, Argentina, Ecuador, Peru, Colombia, etc.)
• Europe (Turkey, Spain, Turkey, Netherlands Denmark, Belgium, Switzerland, Germany, Russia UK, Italy, France, etc.)
• Asia-Pacific (Taiwan, Hong Kong, Singapore, Vietnam, China, Malaysia, Japan, Philippines, Korea, Thailand, India, Indonesia, and Australia).

Informational Takeaways from the Market Study: The report AI in Video Surveillance matches the completely examined and evaluated data of the noticeable companies and their situation in the market considering impact of Coronavirus. The measured tools including SWOT analysis, Porter's five powers analysis, and assumption return debt were utilized while separating the improvement of the key players performing in the market.

Key Development's in the Market: This segment of the AI in Video Surveillance report fuses the major developments of the market that contains confirmations, composed endeavours, R&D, new thing dispatch, joint endeavours, and relationship of driving members working in the market.

Some of the important question for stakeholders and business professional for expanding their position in the AI in Video Surveillance Market:
Q 1. Which Region offers the most rewarding open doors for the market Ahead of 2023?
Q 2. What are the business threats and Impact of latest scenario over the market Growth and Estimation?
Q 3. What are probably the most encouraging, high-development scenarios for AI in Video Surveillance movement showcase by applications, types and regions?
Q 4.What segments grab most noteworthy attention in AI in Video Surveillance Market in 2023 and beyond?
Q 5. Who are the significant players confronting and developing in AI in Video Surveillance Market?

AI in Video Surveillance Market Study Coverage:
•  It includes major manufacturers, emerging player's growth story, and major business segments of AI in Video Surveillance market, years considered, and research objectives. Additionally, segmentation on the basis of the type of product, application, and technology.

• AI in Video Surveillance Market Executive Summary: It gives a summary of overall studies, growth rate, available market, competitive landscape, market drivers, trends, and issues, and macroscopic indicators.
• AI in Video Surveillance Market Production by Region
• AI in Video Surveillance Market Profile of Manufacturers-players are studied on the basis of SWOT, their products, production, value, financials, and other vital factors.
• Key Points Covered in AI in Video Surveillance Market Report: Overview, drivers and barriers
• AI in Video Surveillance Market Competition by Manufacturers
• AI in Video Surveillance Market Capacity, Production, Revenue (Value) by Region (2024-2030)
• AI in Video Surveillance Market Supply (Production), Consumption, Export, Import by Region (2024-2030)
• AI in Video Surveillance Market Manufacturers Profiles/Analysis
• AI in Video Surveillance Market Manufacturing Cost Analysis, Industrial/Supply Chain Analysis, Sourcing Strategy and Downstream Buyers, Marketing
• Strategy by Key Manufacturers/Players, Connected Distributors/Traders Standardization, Regulatory and collaborative initiatives, Industry road map and value chain Market Effect Factors Analysis.
