Definition:

The Domain Name System (DNS) is a hierarchical decentralized naming system for computers, services, or any resource connected to the internet or a private network. It translates user-friendly domain names into IP addresses, which are numerical identifiers used by computers to communicate with each other on a network.

Market Trends:
Shift towards DNS over HTTPS (DoH) and DNS over TLS (DoT) for enhanced privacy and security
Integration of DNS services with content delivery networks (CDNs) for optimized performance

Market Drivers:
Increasing internet usage and online activities globally
Growth in the number of websites, domains, and digital services

Market Opportunities:
Offering DNS services tailored for specific industries such as e-commerce, finance, and healthcare
Providing DNS solutions for IoT (Internet of Things) devices and edge computing environments

Global Domain Name System (DNS) Market Competitive Analysis

Know your current market situation! Not just new products but ongoing products are also essential to analyse due to ever-changing market dynamics. The study allows marketers to understand consumer trends and segment analysis where they can face a rapid market share drop. Figure out who really the competition is in the marketplace, get to know market share analysis, market position, % Market Share, and segmented revenue.

Players Included in Research Coverage: Allied Telesis, Inc. (United States), BlueCat Networks (Canada), Cisco Systems Inc. (United States), Cloudflare, Inc. (United States), Comodo Security Solutions, Inc. (United States), DigiCert, Inc. (United States), Efficient IP (United States), Mission Secure Inc. (United States), F5, Inc. (United States), IBM Corporation (United States), Infoblox. (United States), Insight (United States), Akamai Technologies (India), ThreatSTOP (United States), Verigio Inc. (United States), VeriSign Inc. (United States).

Additionally, Past Global Domain Name System (DNS) Market data breakdown, Market Entropy to understand development activity and Patent Analysis*, Competitors Swot Analysis, Product Specifications, and Peer Group Analysis including financial metrics are covered.
