## About Vendia

Vendia is the future of collective data intelligence, combining smart APIs, databases, and distributed ledger technology inside a single platform. Vendia's data automation cloud makes it easy to share data inside and outside of the organization in real time and with full visibility, governance, and control. Companies such as BMW, Delta Air Lines, Resolution Life Insurance, and Fannie Mae use Vendia to automate contextual and compliant data flows between any-to-any systems for a harmonized, accurate view of data that unlocks speed, innovation, and cost savings.

Vendia is a rapidly growing, minority-owned startup headquartered in San Francisco and Seattle, backed by \$50M in investment from top-tier investors. Vendia was founded by industry veterans Dr. Tim Wagner, inventor of AWS Lambda and former VP of Engineering at Coinbase, and Shruthi Rao, founder of AWS' blockchain movement and former head of go-to-market for Amazon Managed Blockchain and AWS Serverless.
