NeuSculpt: Revolutionizing Body Contouring

“

NeuSculpt is a game-changer in body contouring, offering clients effective fat reduction and muscle toning without surgery or downtime.”

Dr. Simon Ourian

NeuSculpt represents the forefront of body contouring technology, utilizing advanced electromagnetic energy to simultaneously reduce fat and tone muscle. This dual-action approach targets stubborn fat deposits and enhances muscle definition, providing clients with a sculpted and toned physique.

Key Benefits of NeuSculpt:

- Non-Invasive and Pain-Free: NeuSculpt offers a comfortable treatment experience without the need for needles, anesthesia, or recovery time.

Effective Fat Reduction: The electromagnetic energy selectively targets and destroys fat cells, leading to noticeable fat reduction in treated areas such as the abdomen, thighs, and buttocks.

- Muscle Toning: NeuSculpt stimulates deep muscle contractions, strengthening and toning muscles to enhance overall body contour.

- Quick and Convenient: Each NeuSculpt session lasts just 30 minutes, making it easy to fit into any busy schedule. Optimal results can often be achieved in a series of treatments.

Dr. Simon Ourian: A Pioneer in Aesthetic Medicine

Dr. Simon Ourian's reputation as a pioneer in the field of aesthetic medicine is built on his commitment to innovation and excellence. The success of NeuSculpt underscores his dedication to providing cutting-edge, non-surgical solutions that deliver exceptional results. His passion for helping clients achieve their beauty goals with minimal disruption to their daily lives sets Epione Beverly Hills apart as a premier destination for aesthetic treatments.

Client Testimonials

Clients who have undergone NeuSculpt treatments have been thrilled with their results. "NeuSculpt has transformed my body in ways I never thought possible without surgery," says one satisfied client. "I feel more confident and love the definition I see in my muscles."
