[Rising Demand from the Agriculture Industry Drives Market Growth](#)

The rising demand from the agriculture industry is a significant factor contributing to the growth of the soil aerators market. Soil aerators enhance root development and boost photosynthesis and chlorophyll content, improving plant growth and reducing plant mortality under stress conditions. For instance, according to the United States Department of Agriculture, U.S. agricultural exports grew by 11% or \$19.5 billion in 2022 over the previously

established record in 2021, highlighting the increasing demand in the agriculture sector.
