Definition:

Pet toys refer to objects specifically designed for pets to play with, typically to provide physical and mental stimulation. These toys come in various forms, such as chew toys, interactive toys, balls, puzzles, and plush toys, among others. Pet toys serve several purposes, including exercising pets, preventing boredom, promoting dental health (in the case of chew toys), and fostering cognitive development through interactive play. They are made from a variety of

materials, including rubber, plastic, fabric, and natural fibers, ensuring suitability and safety for different types of pets like dogs, cats, birds, and small mammals.

Market Drivers:

Increased Disposable Income

Humanization of Pets

Market Opportunities:

1) Sustainable and Eco-friendly Products

2) Technological Integration

Market Leaders & Development Strategies:

In 2023, Fressnapf Tierfutter GmbH acquired Jumper Groep, which is a specialty pet products retailer in Netherlands. This acquisition will strengthen its business position. In 2021, Petz Group acquired Cansei de Ser Gato (CDSG), largest digital content platform dedicated exclusively to cat products in Brazil. With this acquisition, it will strengthen its business position in the country.
