Risk Cloud include a Cyber Risk & Controls Compliance Solution, Fully-Managed Cyber Risk Quantification in partnership with Protiviti, and an Accelerated FedRAMP Certification Application. A significant worldwide standard is the General Data Protection Regulation (GDPR), an EU regulation that oversees the gathering, retention, and utilization of personal information. Adhering to GDPR requires strong data security measures and transparent user consent guidelines in GRC software. In addition, rules that are specific to certain industries, such as the Sarbanes-Oxley Act (SOX) for publicly traded companies in the US, frequently require specific protocols for keeping records and reporting compliance. GRC software is essential for organizations to navigate complex regulations by simplifying data management, automating compliance workflows, and aiding in reporting processes.
