

# Global Sales of Preowned Single-Engine Helicopters are on a Positive Trajectory during the First Half of 2024

*Aero Asset released the 2024 Half Year Heli Market Trends Single-Engine edition analyzing the worldwide, preowned single-engine helicopter market.*

TORONTO, ONTARIO, CANADA, July 8, 2024 /EINPresswire.com/ -- Aero Asset, a leading global helicopter sales and market intelligence firm, has announced the release of its latest report, the 2024 Half Year Heli Market Trends Single-Engine edition. This report, backed by Aero Asset's expertise and proprietary market insight, offers a comprehensive analysis of the worldwide, preowned single-engine helicopter market in the first half or first semester of 2024. The data shows that global sales have stabilized on a positive trend for the first time in three semesters.

“

During the first half of 2024, retail sales for single-engine helicopters were up for the first time in a year and a half.”

*Valerie Pereira, Aero Asset's  
Vice President of Market  
Research*

“During the first half of 2024, retail sales for single-engine helicopters were up for the first time in a year and a half,” said Valerie Pereira, Aero Asset's Vice President of Market Research. “The supply of single-engines for sale also increased, but pricing remained steady versus the same timeframe last year.”

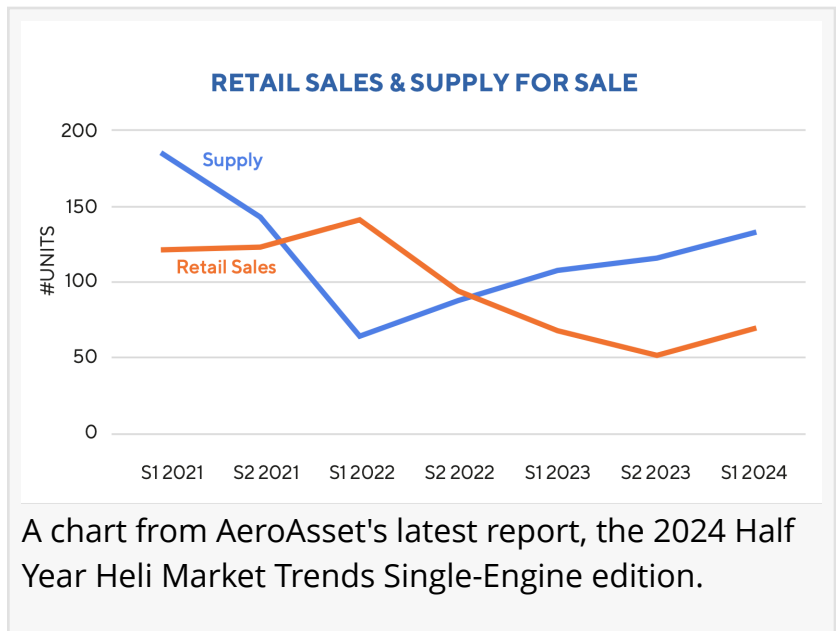

After falling for three consecutive semesters, Aero Asset's market analysis shows that retail sales increased 4% in the first half of 2024 (S1 2024) compared to the same period in

2023 (YOY). The supply of single-engine helicopters ended 23% higher YOY, and the absorption rate increased to 13 months of supply at current trade levels.

## Regions:

In the first half of 2024, Europe and North America accounted for 60% of the worldwide supply of single-engine helicopters for sale. Europe held the largest share of the supply (35%), followed by North America (25%), Asia Pacific (22%), Latin America (11%) and rest of world (7%).

The data reveals that retail transactions to Europe resumed in 2024 following a slump the previous year. However, most helicopter sales continue to be driven by North American buyers, accounting for 63% of all transactions S1 2024.

## Liquidity:

The most liquid preowned single-engine helicopter market in the first half of 2024 was the Airbus AS350 B3/B3e/H125, followed by the Bell 407/GX/P/I and the Leonardo AW119K/Ke/Kx. The Airbus EC130 B4/H130 was the least liquid market, with an absorption rate of 1.6 years.
