Based on deployment mode, the on-premise segment grabbed the highest share of more than two-thirds of the overall decision intelligence market in 2021 and is projected to maintain its dominance in 2031. This is owing to the superior data protection provided by on-premise while allowing businesses to comply with various regulatory standards. However, the cloud segment is expected to witness the fastest CAGR of 16.7% from 2022 to 2031.

Based on enterprise size, the large enterprise segment grabbed the highest share of nearly two-thirds of the overall decision intelligence market in 2021 and is projected to maintain its dominance in 2031. However, the small and medium-sized enterprises (SMEs) segment is expected to witness the fastest CAGR of 16.7% from 2022 to 2031.

Enquiry Before Buying: <https://www.alliedmarketresearch.com/purchase-enquiry/A53623>

Based on region, the market in North America was the largest in 2021, accounting for nearly one-third of the global decision intelligence market. This is because advanced technologies such as AI, ML, intelligent apps, and natural language queries are used to transform data dashboards and business analytics into more comprehensive decision-support platforms in the region. However, the market in Asia-Pacific is likely to dominate in terms of revenue and exhibit the fastest CAGR of 18.1% during the forecast period.

Key players profiled in decision intelligence industry include Google LLC, Oracle Corporation, Microsoft Corporation, Board International, Metaphacts GmbH, H2O.ai, International Business Machines Corporation, Intel Corporation, Diwo.ai, and Clarifai, Inc.

Covid-19 Scenario:

□ The impact of COVID-19 had a mixed impact on the decision intelligence market.

□ The market faced challenges, owing to the lockdowns and restrictions imposed by governments across the globe, which led to a decline in consumer spending on luxury items,

including decision intelligence products.

□ However, the COVID-19 pandemic also had a positive effect on the market for decision intelligence. Many businesses deployed intelligence software at that time in order to observe the workflow and make better decisions easily and remotely.

Thanks for reading this article, you can also get an individual chapter-wise section or region-wise report versions like North America, Europe, or Asia.

If you have any special requirements, please let us know and we will offer you the report as per your requirements.

Lastly, this report provides market intelligence most comprehensively. The report structure has been kept such that it offers maximum business value. It provides critical insights into the market dynamics and will enable strategic decision-making for the existing market players as well as those willing to enter the market.
