

## Urea Cycle Disorders Treatment Market Poised for Growth, Expected to Reach \$1.57 Billion by 2028

The Business Research Company's Urea Cycle Disorders Treatment Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, July 4, 2024 /EINPresswire.com/ -- The <u>urea</u> cycle disorders treatment market size has shown steady growth in recent years, increasing from \$1.29 billion in 2023 to \$1.35 billion in 2024 at a

compound annual growth rate (CAGR) of 4.5%. This growth in the historic period can be attributed to heightened awareness and education, improvements in newborn screening, emergence of patient support networks, and advancements in standard of care guidelines.

## "

The urea cycle disorders treatment market size is expected to see steady growth in the next few years. It will grow to \$1.57 billion in 2028 at a compound annual growth rate (CAGR) of 3.9%." *The Business Research Company*  Rising Demand for Advanced Therapies Drives Market Growth

The <u>urea cycle disorders treatment market</u> is expected to continue its steady growth trajectory, reaching \$1.57 billion by 2028, with a CAGR of 3.9%. Factors driving this forecasted growth include advancements in enzyme replacement therapy, expanded newborn screening programs, increased research collaborations, expansion of therapeutic options, and the adoption of telemedicine and remote care technologies.
