

JOLT Phone App Introduces New Levels of Personalization and Customization for Android Users

JOLT Phone App sets a new standard for Android dialers with extensive customization, productivity tools, and upcoming referral program.

RIO DE JANEIRO, BRAZIL, July 5, 2024 /EINPresswire.com/ -- JOLT [Phone App](#), developed by I CUBE ACCESS, is transforming the way Android users experience their call screens, bringing unprecedented levels of personalization and customization to the forefront. As the future of calling, JOLT enables users to transform their [dialer app](#) into a unique, personalized experience.

Unlike traditional dialer apps that come pre-installed on Android devices, JOLT empowers users to customize every aspect of their calling experience.

This has led to over 2 million downloads, a 4.2-star rating on the Google Play Store, and more than 7,000 reviews, showcasing a growing trend among Android users who seek more personalized experiences.

Why JOLT Stands Out

Traditional dialer apps are often generic and lack the ability to cater to individual preferences. JOLT changes this by offering extensive customization features, including:

1. Customizable [Call Screen](#): Users can modify layouts, calling styles, buttons, and even ringtones. Personalize the call screen background with images, videos, or selfie categories that change with each call.
2. Personalization Features: Users can adjust app colors, contact avatars, themes, app icons, and

Your ultimate calling companion

Can't Talk

Customize call screen

Select a 'Answering Style' and 'Background' to show when you make or receive calls.

Jolt Call Status

Let everyone know what's your status on their call screen when they call you. This status will be only visible to users using Jolt.

JOLT PHONE APP

tabs to match their preferences.

3. Productivity Tools: With features like NOTES and MANAGE Calls, users can capture important moments and set reminders for work, business, and personal engagements.

4. CALL STATUS Setup: Inform other callers of your status (Busy, In a Meeting, On Vacation, Battery Low) without having to answer the call.

5. Voice and Video Messaging: Share voice or video messages with callers who couldn't reach you, eliminating the need for paid voicemail services.

A New Era of Personalization

JOLT's developers are focused on enhancing the user experience by making personalization more accessible and enjoyable. Recognizing that every mobile phone user is different, JOLT offers extensive customization options to ensure that users can create a dialer app that truly reflects their personality and preferences.

Upcoming Referral Program

To further extend its reach and engage users, JOLT is excited to announce an upcoming referral program that will allow users to extend their free trial period. This program aims to reward both existing users and new sign-ups, ensuring that more people can enjoy the full range of JOLT's premium features.

“

Personalization and customization are the future of mobile experiences. Your phone should reflect your unique style and preferences, making every interaction truly your own.”

Kaushal Patel

Language Localization

JOLT is also proud to offer language localization in 16 languages, ensuring that users have the flexibility to use the app in their preferred language. The supported languages include:

1. English

2. Arabic
3. Spanish
4. French
5. Russian
6. Portuguese
7. Hindi
8. Marathi

The advertisement features a woman meditating in the background. Overlaid on the image is a smartphone screen displaying the 'Manage profiles' interface. The screen shows three active call management profiles: 'Busy' (30 Minutes, Reject only unknown numbers), 'Gym' (1 Hour, Reject only unknown numbers), and 'Meeting' (1 Hour, Mute calls). A 'Driving' profile (1 Hour, Reject only unknown numbers) is also visible. The Jolt logo is at the top left, and a 'GET IT ON Google Play' badge is at the top right. Below the image, the text 'Manage Calls' is displayed.

9. Bengali
10. Odia
11. Kannada
12. Malayalam
13. Tamil
14. Telugu
15. German
16. Italian
