## Strong Future Growth Anticipated

The tooth filling materials market is projected to continue its strong growth, reaching \$2.24 billion in 2028 at a compound annual growth rate (CAGR) of 5.3%. The growth in the forecast period can be attributed to focus on minimally invasive dentistry, increasing disposable income in emerging markets, aging population's impact on dental

care, evolving regulatory landscape, telehealth and remote dentistry.

## Growth driver of the tooth filling materials market

A high incidence rate of dental disorders is expected to propel the growth of the tooth-filling material market going forward. Dental disorders refer to a variety of conditions or illnesses that impact the teeth, gums, jaw, and associated oral structures and these disorders include ailments such as tooth decay, gum disease, and malocclusion. The dental filling material is used in dental disorders to restore minor fractures or address decay in the teeth, serving as a form of

restorative dental treatment.

### Major Players and Market Trends

Key players in the tooth filling materials market include 3M Corporation, Dentsply Sirona, Kerr Corporation, Ultradent Products Inc., Ivoclar Vivadent AG, Septodont Inc., Shofu Inc., Pentron Clinical Technologies LLC, SDI Limited, DenMat Holdings LLC, GC America Inc., Coltene Group, VOCO GmbH, Zest Dental Solutions, Angelus Indústria de Produtos Odontológicos S/A, Premier Dental Products Company, Centrix Inc., BISCO Dental Products Inc., Vista Dental Products, Parkell Inc., DMG America LLC, Brasseler USA, Kuraray Noritake Dental Inc., Cosmedent Inc., Tokuyama Dental America Inc..

The high cost of tooth filling materials had a negative impact on the growth of the tooth filling materials market during the historic period. The high cost of tooth filling materials can be a significant barrier for patients who require dental treatment, particularly those without dental insurance or with limited coverage.

### Tooth Filling Materials Market Segments:

- 1) By Product: Composite Resin, Silver Amalgam, Glass Ionomer, Gold Fillings, Other Products
- 2) By Filling: Direct, Indirect
- 3) By End Use: Hospitals, Dental Clinics, Other End Uses

### Geographical Insights: North America Leading the Market

North America was the largest region in the tooth filling materials market in 2023. Asia-Pacific is expected to be the fastest-growing region during the forecast period, driven by expanding healthcare facilities and increasing awareness of the benefits of tooth filling materials.

### Tooth Filling Materials Market Definition

Tooth-filling material refers to the dental filling materials employed to fill cavities and prevent further deterioration of the tooth structure. It is used by dentists to repair and restore damaged or decayed teeth.

The main products of tooth filling materials are composite resin, silver amalgam, glass ionomer, gold fillings, and others. Composite resin referred to as dental composite is a tooth-colored material employed in dentistry for various restorative and cosmetic purposes. They can be filled by direct and indirect methods for hospitals, dental clinics, and other end uses.

Tooth Filling Materials Global Market Report 2024 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America,

USA, South America, Middle East and Africa.

- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Tooth Filling Materials Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on tooth filling materials market size, tooth filling materials market drivers and trends, tooth filling materials market major players, competitors' revenues, market positioning, and market growth across geographies. The tooth filling materials market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
