

# Universadent.com Evaluates Top Intraoral Scanners: Medit i900, 3Shape TRIOS 5, and Dentsply Primescan Connect

*Comprehensive Review Aims to Guide Dental Professionals in Choosing the Best Technology for Dental Practice*

SINGAPORE, SINGAPORE, July 6, 2024  
/EINPresswire.com/ --

Universadent.com is a top provider of dental imaging equipment.

Universadent has compared three top 3D intraoral scanners:

[Medit i900](#),

[3Shape TRIOS 5](#), and [Dentsply Sirona](#)

[Primescan Connect](#). As dental

technology rapidly evolves, these

advanced intraoral scanners are setting new standards in accuracy, efficiency,

and patient comfort. This comparison aims to guide dental professionals in selecting the best scanner for their practice.

Intraoral Scanner Comparison

Medit i900: Accuracy and Flexibility

“

I find Universadent.com's comprehensive analysis invaluable. The detailed comparisons allow us to select the technology that best meets our clinical needs.”

*Dr. Nguyen, Nguyen digital dentistry*

The Medit i900 stands out for its precision and user-friendly features. Key highlights include:

1. High-Resolution Imaging: Delivers exceptional image clarity, aiding in accurate diagnostics and treatment planning.
2. Fast Scanning Speed: Reduces chair time, enhancing patient comfort and workflow efficiency.
3. Versatile Applications: Suitable for various dental procedures, from restorative to orthodontic applications.
4. Open System: Easily integrates with various CAD/CAM

software, offering flexibility and convenience for dental practices.

## 3Shape TRIOS 5: Innovation and Usability

The 3Shape TRIOS 5 is renowned for its innovative design and ease of use. Notable features include:

1. **Advanced AI Technology:** Enhances scan accuracy and reduces errors, ensuring precise dental impressions.
2. The scanner has a user-friendly touch screen and design, making it easy for clinicians and patients. The interface is simple to operate.
3. **Patient Engagement Tools:** These features visually explain treatment options to patients, improving communication and case acceptance.
4. **Integrated Workflows:** Seamlessly integrates with various dental workflows, from implantology to orthodontics, streamlining practice operations.

## Dentsply Sirona Primescan Connect: Speed and Integration

The Dentsply Sirona Primescan Connect is celebrated for its speed and seamless integration capabilities. Key attributes include:

1. **Ultra-Fast Scanning:** Can capture full-arch scans in seconds, significantly reducing patient chair time.
2. **Exceptional Accuracy:** Provides highly detailed and accurate scans, critical for complex restorative and implant cases.
3. **Seamless Integration:** Easily integrates with Dentsply Sirona's comprehensive digital dentistry solutions, from CAD/CAM to imaging systems.
4. **Cloud Integration:** Provides options for storage and sharing via the cloud, promoting teamwork and improving operational efficiency.

Choosing a suitable intraoral scanner is crucial for optimizing patient care and practice efficiency. The Medit i900, 3Shape TRIOS 5, and Dentsply Sirona Primescan Connect have specific benefits for various dental requirements. Universadent.com commits to providing dental professionals with the latest technology and expert guidance to enhance their practice.
