

# Non-Opioid Pain Patch Market Growth Analysis With investment opportunities

*The Business Research Company's Non-Opioid Pain Patch Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, July 8, 2024 /EINPresswire.com/ -- The [non-opioid pain patch market](#) has experienced robust growth in recent

years, with projections indicating

continued expansion. Starting from \$3.34 billion in 2023, the market is expected to grow to \$3.53 billion in 2024, reflecting a compound annual growth rate (CAGR) of 5.6%. This growth can be attributed to increased cases of chronic pain, patient preference for non-invasive treatments, advancements in formulations, and rising sports injuries, all amid concerns over opioid addiction.

The non-opioid pain patch market size is expected to see steady growth in the next few years. It will grow to \$4.25 billion in 2028 at a compound annual growth rate (CAGR) of 4.8%.”

*The Business Research Company*

Steady Growth Expected with Market Reaching \$4.25 Billion by 2028

Looking ahead, the non-opioid pain patch market is forecasted to maintain steady growth, reaching \$4.25 billion by 2028, growing at a CAGR of 4.8%. Factors contributing to this growth include heightened R&D investments, rising healthcare expenditures, supportive regulatory environments, increasing consumer awareness, and a growing elderly population. Major trends anticipated in this period include the adoption of wireless and smart

patch technologies, integration of natural ingredients, advancements in wearable technology, and a shift towards biodegradable and eco-friendly patches with long-lasting effects.

Non-Opioid Pain Patch Global Market Report 2024 :  
Market Size, Trends, And Global Forecast 2024-2033

Chronic pain, a significant health concern affecting a substantial portion of the population, is expected to fuel the demand for non-opioid pain patches. These patches effectively alleviate mild to moderate pain associated with conditions such as headaches, arthritis, muscle aches, and backaches. According to the Centers for Disease Control and Prevention (CDC), chronic pain prevalence in the United States alone ranged from 20.5% to 21.8% from 2019 to 2021, underscoring the market's growth prospects.

#### Key Players Leading Innovation in the Market

Major companies driving innovation in the non-opioid pain patch market include Hisamitsu Pharmaceutical Co. Inc., Pfizer Inc., Novartis AG, Sanofi S.A., GlaxoSmithKline PLC, and Medtronic PLC. These companies are focusing on developing advanced products like biocompatible surgical patches to cater to evolving patient needs and enhance treatment outcomes.

#### Emerging Trends Shaping the Market Landscape

Innovative developments such as biocompatible surgical patches, which deliver pain relief directly to wounds, exemplify the industry's commitment to advancing therapeutic solutions. For instance, Duke University launched a polymer patch in March 2021 that inhibits COX-2 enzymes to reduce pain and inflammation, dissolving over several days post-application.

#### Market Segmentation and Geographical Insights

##### Segments:

- Patch Types: Lidocaine Patches, Diclofenac Patches, Capsaicin Patches, Ketoprofen Patches, Other Patches
- Distribution Channels: Hospital Pharmacies, Retail Pharmacies, Other Distribution Channels
- Indications: Musculoskeletal Pain, Neuropathic Pain

##### Geographical Insights:

North America emerged as the largest regional market for non-opioid pain patches in 2023, driven by high healthcare expenditures and advanced healthcare infrastructure. Meanwhile, Asia-Pacific is anticipated to witness the fastest growth during the forecast period, fueled by increasing healthcare investments and rising chronic pain cases.
