“If you had told me in 2014 I would wind up putting the show out every single day for a whole decade, I don’t think I would have believed it,” says Allen Voivod, who hosts and produces the podcast. “All I did was keep putting one foot in front of the other, and it’s taken me and the show further than I dreamed possible.”

“

I’m thinking of the first 10 years as Season 1. Season 2 will look different, but we’re living in a golden age of Star Wars storytelling, and there will be plenty of joy and positivity to share.”

Allen Voivod

Over the past ten years, Star Wars 7x7 has:

- Racked up more than 3.7 million podcast downloads
- Been listened to in more than 170 countries, on all seven continents
- Produced episodes from five countries and a dozen US states
- Broadcast from six Star Wars Celebration events and San Diego Comic-Con
- Released hundreds of interview episodes with Star Wars creatives
- Been featured on TV, radio, podcasts, and the Star Wars Celebration livestream
- Served as a positive and safe force for fans around the world

Of all the places the independent, fan-produced [Star Wars podcast](#) has gone, Voivod says the most remarkable was Skellig Michael, an island off the coast of Ireland. That location serves as Luke Skywalker's hideaway in the Sequel Trilogy movies, and Voivod's live show there included a tour of the natural structures appearing in the film, and an interview with a Rey cosplayer on the island.

The show has evolved over the years, adding [Star Wars video podcasts](#) in 2018, and bonus content on TikTok, Instagram Reels, and YouTube Shorts from 2022 and onward. Fans can continue to look forward to new experiences, as well as show format changes, in its second decade. "I'm thinking of the first 10 years of the show as 'Season 1'," Voivod says. "Season 2 will look different, but we're living in a golden age of Star Wars storytelling, and there will be plenty of joy and positivity to share on the show."
