

Global Patient Simulators Market Growth Overview For 2024-2033

The Business Research Company's Patient Simulators Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LANDON, GREATER LONDON, UK, July 9, 2024 /EINPresswire.com/ -- The global [patient simulators market](#), which replicates human anatomy and physiology for medical training, is

witnessing rapid growth. It is projected to grow from \$2.02 billion in 2023 to \$2.32 billion in 2024, at a compound annual growth rate (CAGR) of 14.7%. This growth is attributed to advancements in medical training, regulatory standards, rising demand for patient safety, healthcare training costs, and globalization of medical education.

Rising Demand for Medical Training Drives Market
Growth

The increasing focus on telehealth training, personalized and adaptive learning, and interprofessional education is expected to propel the patient simulators market to \$4 billion by 2028, growing at a CAGR of 14.6%. The global shortage of healthcare professionals and expanded use in

specialized fields are further contributing factors. Major trends include technological innovations, industry collaborations, and the integration of augmented reality (AR) in simulation.
