Increasing Popularity of Sports and Fitness Activities Drives Market Growth

The increasing popularity of sports and fitness activities is a significant factor contributing to the growth of the plant-based bars market. These bars are often used for their convenience, portability, and nutritional benefits, supporting performance and recovery during physical activities. According to the Sports Business Journal, the

number of active sports and fitness participants in the US increased from 229.7 million in 2020 to 232.6 million in 2021, indicating a growing market for plant-based nutritional products.
