

Lasering USA Launches "Forever Scan" Technology for the MiXto Pro CO₂ Laser and Venezia Lift Treatment

Attention aesthetic surgeons seeking cutting-edge technology for unparalleled precision and speed.

SAN RAMON, CALIFORNIA, UNITED STATES, July 11, 2024

/EINPresswire.com/ -- The [MiXto Pro](#)

[CO₂ Laser](#) and [Venezia Lift treatment](#) with "Forever Scan" technology represents a breakthrough in aesthetic procedures. This innovative system empowers you to deliver exceptional results for your patients while optimizing treatment efficiency within your practice.

“

Our new "Forever Scan" Software enables continuous pulsing without pausing between scans. This dramatically cuts treatment times down by 50%.”

Allen R Howes

Here's why the MiXto Pro and Venezia Lift with "Forever Scan" technology are your perfect partners:

- **Unmatched Precision:** The "Forever Scan" technology ensures unparalleled beam control, allowing for meticulous ablation and minimal thermal impact on surrounding tissues. This translates to finer sculpting and reduced risk of complications.

- **Enhanced Speed and Efficiency:** "Forever Scan" significantly reduces treatment time compared to traditional raster scanning methods. This translates to faster procedures, improved patient comfort, and the ability to accommodate more patients within your schedule.

- **Tailored Treatments:** The system's versatility allows for precise adjustments to scan patterns, depths, and power settings. This enables you to customize treatments for diverse patient needs and desired outcomes.

Imagine:

- Performing delicate eyelid procedures with exceptional control and minimal downtime.
- Delivering tighter skin resurfacing with faster recovery times.
- Addressing a wider range of wrinkles and blemishes with unmatched precision.

Mixto Pro with Venezia Lift is the only CO2 laser that can offer this modality with Ablative and Non-Ablative treatments.

Schedule a demonstration to witness the future of aesthetic laser technology.
