SINGAPORE, SINGAPORE, July 23, 2024 /EINPresswire.com/ -- Singapore-based Gen AI company [Addlly AI](#) has launched the first zero-prompt Shopify AI SEO Writer app, tailored specifically for Shopify users. This innovative AI tool enables the effortless creation of high-quality, SEO-optimized blog posts and social media content based on the store's Shopify products, all without the need for prompt engineering.

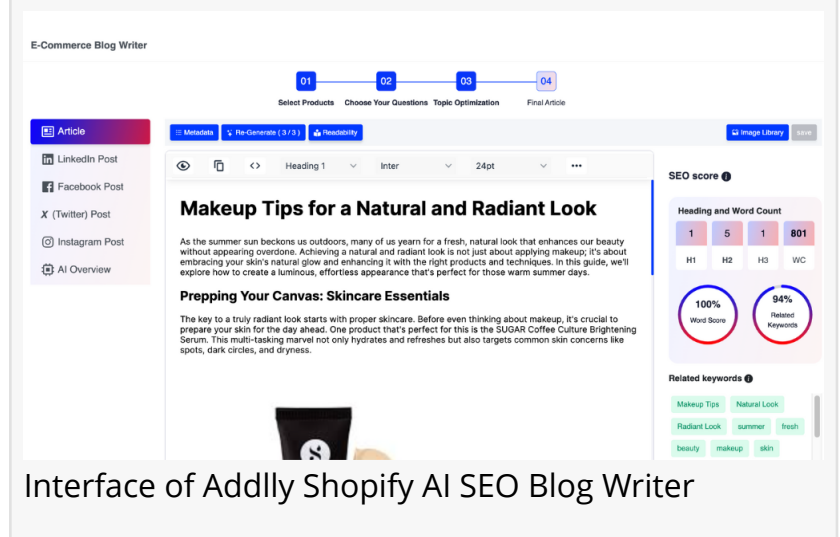

The [Shopify AI Writer](#) app simplifies content creation into a few easy steps. Users can select products from their Shopify store catalogue, adjust the AI writer's settings—including tone, and language—to align with their brand, and review and select from suggested trending blog topics tailored to their chosen products.

Additionally, the app generates ready-to-post social media content for platforms like Facebook, Twitter(X), and LinkedIn to drive traffic to the store.
