

Waxed Branding Highlights Industry-Leading Sublimation and DTF Printing Services

A prominent corporate branding company in South Africa, is drawing attention to its established Sublimation Printing and Direct-to-Film (DTF) Printing services

JOHANNESBURG, GAUTENG, SOUTH AFRICA, July 10, 2024

/EINPresswire.com/ -- [Waxed Branding](#), a prominent corporate branding company in South Africa, is drawing attention to its established [Sublimation Printing](#) and Direct-to-Film (DTF) Printing services. These advanced printing solutions continue to set the standard in the branding industry, providing high-quality and efficient options for businesses looking to enhance their corporate identity.

Sublimation Printing: Delivering Vibrant and Durable Results

Waxed Branding's Sublimation Printing service offers a state-of-the-art solution for creating vivid, high-resolution prints on various materials. This process involves transferring dye onto fabrics, metals, or plastics,

resulting in durable and visually striking products. The sublimation technique ensures that colors are deeply embedded into the material, providing long-lasting and fade-resistant prints.

Key advantages of Waxed Branding's Sublimation Printing include:

Waxed Logo

DTF Printer

High-resolution prints with exceptional detail and color accuracy

Durability and resistance to fading and wear

Versatility in application across a wide range of materials

Eco-friendly process using water-based inks, aligning with Waxed Branding's commitment to sustainability

[DTF Printing](#): High-Volume, High-Quality Production

Waxed Printing

Waxed Branding's Direct-to-Film (DTF) Printing service meets the demands of high-volume, high-quality printing.

The company's DTF printer is capable of producing up to 15,000 full-color A5 prints per day, making it an ideal solution for businesses requiring rapid turnaround times without compromising on quality.

Key features of Waxed Branding's DTF printer include:

1200mm width print platform for large-scale printing projects

White ink shaking system for consistent and smooth application

Electric rewinding for efficient handling of printed materials

High-speed Epson I3200 print heads for exceptional print quality at high speeds

Damper heating function to maintain optimal ink viscosity

Double-sided curing oven with adjustable heating temperature

Printing speed of 48m² per hour on average with 6 Pass setting, and up to 72m² per hour with 3 Pass setting

Commitment to Excellence and Sustainability

With 15 years of experience in the corporate branding industry, Waxed Branding has established a reputation for excellence and innovation. The company's ongoing investment in advanced printing technologies underscores its commitment to delivering superior quality and efficiency to its clients.

Andrew, a branding expert at Waxed Branding, states, "Our Sublimation and DTF Printing services continue to be at the forefront of the industry. We're proud to offer these advanced solutions to our clients, helping them achieve their branding goals with unparalleled efficiency and quality."

Waxed Branding's eco-friendly processes and materials reflect its dedication to sustainability,

ensuring that clients can achieve their branding objectives while minimizing their environmental impact.
