

Eiju by Shunsuke Ohe Wins Bronze in A' Interior Design Awards

Shunsuke Ohe's Innovative Office Design, Eiju, Recognized for Excellence by Prestigious A' Design Award Jury

COMO, ITALY, July 10, 2024
/EINPresswire.com/ -- The A' Design
Award, one of the world's most
prestigious and highly respected
design competitions, has announced
Shunsuke Ohe as a Bronze winner in
the Interior Space and Exhibition
Design category for the innovative
office design, Eiju. This recognition
highlights the significance of Eiju within
the interior design industry, celebrating
its outstanding creativity, functionality,
and visual appeal.

Eiju's award-winning design showcases the importance of creating inspiring and efficient workspaces that cater to

the diverse needs of modern professionals. By seamlessly blending natural elements with contemporary aesthetics, Eiju demonstrates how office environments can positively impact employee well-being, productivity, and collaboration. This recognition from the A' Interior Space, Retail and Exhibition Design Award underscores the growing demand for innovative and human-centric interior design solutions in the corporate world.

Eiju's unique design concept revolves around two distinct themes, each assigned to a different floor. The main floor embodies a "fusion with nature," featuring an entrance adorned with a 24-piece arched monument resembling a large tree, complemented by an array of plants and wooden materials throughout the space. In contrast, the sub-floor takes inspiration from a cruise ship sailing on the open sea, with a refreshing blue and white color scheme and cleverly designed louver panels that create the illusion of sunlight streaming through the gaps.

The Bronze A' Design Award for Eiju serves as a testament to Shunsuke Ohe's dedication to pushing the boundaries of interior design and creating spaces that inspire and enhance the human experience. This recognition is expected to fuel further innovation within the LUSTYdesign Inc. team, as they continue to develop groundbreaking designs that prioritize functionality, aesthetics, and user well-being.
