Geographical Insights: Asia-Pacific Leading The Market

Asia-Pacific was the largest region in the earthen plasters market in 2023. Asia-Pacific is expected to be the fastest-growing region during the forecast period, driven by expanding healthcare facilities and increasing awareness of the benefits of earthen plasters.

Earthen Plasters Market Definition

Earthen plaster is a type of plaster made from a mixture of clay, sand, and fiber, such as straw, and protects the structural and insulating building components. This type of plaster is often used as an eco-friendly and sustainable finish for interior walls. It enhances the natural aesthetics of a space while keeping indoor humidity levels balanced, which promotes healthy living environments.
