Conjunctivitis Treatment Global Market
Report 2024 – Market Size, Trends, And
Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, July 11, 2024 /EINPresswire.com/ -- The conjunctivitis treatment market has experienced robust growth in recent years, expanding from \$4.49 billion in

2023 to \$4.7 billion in 2024 at a compound annual growth rate (CAGR) of 4.6%. The growth in the historic period can be attributed to the globalization of eye care services, increased affordability and accessibility, demand for combination therapies, innovation in anti-inflammatory treatments, and growth in eye care infrastructure.

Strong Future Growth Anticipated

The conjunctivitis treatment market is projected to continue its strong growth, reaching \$5.48 billion in 2028 at a compound annual growth rate (CAGR) of 4.0%. The growth in the forecast period can be attributed to a focus on preventive healthcare, a rise in global incidence of conjunctivitis, growth in healthcare awareness and access, an increase in environmental allergens, expanding aging

population. Major trends in the forecast period include regulatory shifts in treatment approvals, focus on comfort and symptom management, integration of artificial intelligence in diagnosis, demand for combination therapies, and growth in herbal and alternative remedies.

Growth Driver Of The Conjunctivitis Treatment Market

The rising prevalence of conjunctivitis cases is expected to propel the growth of the conjunctivitis treatment market going forward. Conjunctivitis refers to the inflammation of the conjunctiva, the thin, clear tissue that covers the white part of the eye and lines the inner surface of the eyelids. The growth of the conjunctivitis treatment market is driven by the increased demand for treatment options as more individuals seek medical attention and treatment due to the rising prevalence of conjunctivitis.
