Z12-2

Stunning Visuals

The QQH 15.6-inch Professional FHD Portable Monitor is a slim HD monitor with a resolution of 1920x1080 pixels. It features advanced IPS technology and offers a 178° viewing angle to ensure an accurate, bright display that provides users with HD-quality visuals. The screen also features a design that reduces blue light radiation damage and prevents flickering, making it more comfortable for the user's eyes during prolonged screen use.

Widely compatible-Plug and play

It features HDMI and USB Type-C connectivity and can be used as an external display for laptops, Macs, mobile phones, PS4, X box, and switches. With no apps or drivers to

install, users can easily access their favourite devices using just a USB Type-C or MINI HDMI cable (Note: Please be aware that, due to the absence of an internal battery in the display, an additional adapter must be plugged in when using the HDMI connection.).

On-the-Go Productivity:

QQH currently sells three 1080p single-screen portable displays [Z12-2](#) and Z1-9), all featuring an ultra-thin portable design with an overall weight of only about 1.5-1.6lb and a slim profile of 0.35 inches thick. Empower users with a streamlined workflow, thanks to the lightweight and portable nature of the monitor, allowing users to set up their mobile office anywhere.

QQH all portable monitors have a foldable invisible kickstand; the built-in stand means the whole unit is quite slim and easy to maneuver. It can be hidden and retracted to the back of the QQH monitor at will, away from the bulk. Switching between landscape (horizontal) and portrait (vertical) orientation is also easy. This design can significantly improve adjustability and ergonomics for a more comfortable viewing experience.

Conclusion

Portable monitors have become increasingly popular over the last few years. QQH is committed to creating affordable, lightweight, and easy-to-use plug-and-play displays. It allows for quick and seamless connectivity between devices, ensuring users can easily switch between work and

The advertisement features a central image of the QQH Z1-9 G monitor connected to a Mac mini. The monitor displays a vibrant, colorful image of a person's face covered in flowers, with a software interface on the right side. Above the monitor, the text reads "Use it as your Main Screen" and "As a 15.6\" Portable Screen for Mac mini, mini PC, etc Mini Hosts." Below the monitor, there are four icons representing features: "HDR Mode", "1080P HDR", "Low Blue Light", and "16.7M Colors". The model name "Z1-9 G" is printed at the bottom left of the advertisement.
