Growth Driver Of The Chronic Myeloid Leukemia (CML) Treatment Market

The rising incidence and prevalence of chronic myeloid leukemia (CML) population is expected to propel the growth of the chronic myeloid leukemia (CML) treatment market going forward.

Chronic myeloid leukemia, also known as chronic myelogenous leukemia, is a type of cancer that affects the bone marrow and blood. It is characterized by the overproduction of immature white blood cells called myeloid cells. Chronic myeloid leukemia (CML) treatment helps to slow the progression of cancer and stop it from reaching an advanced phase.
