

Chuwi Hi10 Max Makes its Debut: Elevating Mobile Computing with 3K Display and Windows 11

SHENZHEN, CHINA, July 11, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- Chuwi, a leading innovator in global technology, today announced the launch of its latest product, the [Hi10 Max](#). We're proud to introduce our first Windows tablet featuring a stunning 3K IPS display paired with a powerful Intel N100 chip. This combination offers our users an outstanding level of visual quality and performance in a versatile 2-in-1 device.

The Hi10 Max is designed to meet the advanced needs of modern professionals and tech enthusiasts equally. With its sleek 9mm profile and lightweight 780g body, the device offers striking portability without compromising on performance or functionality.

Key Features of Chuwi Hi10 Max

Display: A 12.96-inch 3K (2880x1920) IPS display, protected by Corning Gorilla Glass, ensuring exceptional visual clarity and durability.

Performance: Powered by the 12-Gen Intel Alder Lake-N100 processor, offering up to 45% improved performance for everyday tasks.

Memory and Storage: 12Gb LPDDR5 RAM and a 512GB M.2 SSD for efficient multitasking and ample storage.

Operating system: Pre-installed with Windows 11, providing the latest features and security enhancements.

Connectivity: Equipped with Wi-Fi 6 and Bluetooth 5.2 for high-speed wireless connections.

Versatility: Compatible with a detachable magnetic keyboard folio and Hipen H7/ H8 stylus (both sold separately) for enhanced productivity.

Camera: Dual camera setup with a 5MP and an 8MP autofocus rear camera.

Battery Life: Optimized power management offering up to 5 hours of use on a single charge.
