Cable Tags Market Definition

Cable tags refer to small labels or markers used to identify and label cables, wires, or cords in various settings such as in electrical systems, data centers, networking and audiovisual installations.

The main types of cable tags are self-laminating tags, heat-shrinkable tags, wrap-around tags, flag tags, and others. Self-laminating tags are designed with a clear overlay that can be folded over the tag's printed information, creating a protective, laminated layer. They are made of plastic, metal, and other materials and are distributed by direct sales and distributor channels

for telecommunications, energy and power, construction, automotive, manufacturing, and others.
