

INNOCN Expands Gaming and Creativity Horizons with the 45C1R Curved Gaming Monitor

SHENZHEN, GUANGDONG, CHINA, July 13, 2024 /EINPresswire.com/ -- [INNOCN](#), a frontrunner in display technology, reinforces its commitment to providing exceptional user experiences with the introduction of the [45C1R](#) curved gaming monitor.

The INNOCN 45C1R offers a captivating 45-inch display with a stunning 5120 x 1440p resolution on a premium VA panel. This translates to incredible detail, vibrant colors, and an expansive 32:9 aspect ratio that creates a truly cinematic view. Gamers will be drawn into their favorite worlds, while content creators will have a wider canvas to unleash their creativity.

The 45-inch curved display with a 1500R curvature minimizes distractions and maximizes focus, keeping the users fully engaged. Witness exceptional detail with the 5120 x 1440p resolution. The VA panel ensures rich colors and deep blacks for an immersive experience. Up to 120Hz refresh rate reduces tearing and stuttering, delivering silky smooth visuals even in fast-paced games.

The expansive display provides ample screen real estate for efficient multitasking and working with multiple windows simultaneously. Enjoy High Dynamic Range (HDR) content with improved contrast and brighter whites for a more realistic viewing experience. Connect seamlessly to devices with USB-C featuring 90W Power Delivery, DP 1.4, HDMI 2.1, and more. Eliminate the need for additional speakers with the convenient built-in audio solution. With tilt, swivel, and height adjustability, find the perfect viewing position for maximum comfort during long gaming sessions or creative endeavors.
