monitors advancements and trends in crypto and blockchains to provide users with up-to-date opportunities. As the TON blockchain by the Open Network has been gaining steam

recently, it's now available in the wallet. With a secure, free, and user-friendly NC Wallet, everyone can easily explore this network and make transactions with TON assets.

What are the features of the TON blockchain?

Firstly, with its unique features and scalable architecture, The TON blockchain can handle millions of transactions per second. The network utilises a sharding mechanism to divide the blockchain into smaller segments for enhanced efficiency. Secondly, TON enables access to all blockchain features directly from Telegram, potentially onboarding millions of messenger users into the ecosystem and facilitating their interaction with crypto. In addition, the network also simplifies user interaction by assigning human-readable names to accounts.

Why manage TON assets via NC Wallet?

— Fast and free. NC Wallet ensures safe, fast, and free transactions with assets on TON, as the app doesn't charge commissions.

— Enhanced security. NC Wallet stands out for its extra safety features without compromising usability. Users can confirm transactions securely and effortlessly with 2FA and biometry.

— A user-friendly app available on all platforms. NC Wallet ensures users can access a wallet and manage funds from various devices, making it convenient to use wherever one is.

— 25+ cryptocurrencies available for instant exchange. Users don't have to limit themselves to TON assets only and have convenient tools to switch across blockchains and swap assets instantly at market rate.

About NC Wallet

NC Wallet is a commission-free crypto wallet by Zafiro Innovation Systems LLC that caters to both beginners and advanced users. The app regularly expands the list of supported currencies, ensuring the safety of users' assets and a seamless crypto experience.
