The Lineage Foundation for Good (the “Foundation”) is the independent philanthropic arm of Lineage. Stacked with unique cold chain expertise and strategic relationships a plenty, the Foundation is bridging the hunger gap across the world and in our local communities – and everyone is invited to be a part of it. No one likes to see food go to waste, especially while people go hungry. That’s why Lineage Foundation for Good is stepping up to find second chances for surplus food. Their mission is to develop a dynamic, real-time and global link between those who commercially produce their food and the individuals, families and communities who need it most. They know the issue of food waste and insecurity is a global one that is also felt close to home – and with their collective of customers, volunteers and donation partners all around the world, their impact can reach further. In other words, there’s nowhere for hunger and food waste to hide.

Caring For Others is committed to giving those in need a chance to live with dignity by restoring hope and providing the tools and resources required to break the cycle of poverty and, ultimately, sustain an overall improved quality of life. The non-profit offers nine signature programs, ranging from sending a Convoy of Care to areas struck by disaster to creating International Microeconomic Centers.
