

Barrett's Esophagus Market Size, Share, Revenue, Trends And Drivers For 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UK, July

15, 2024 /EINPresswire.com/ -- The

barrett's esophagus market has

experienced robust growth in recent

years, expanding from \$5.98 billion in

2023 to \$6.33 billion in 2024 at a compound annual growth rate (CAGR) of 5.9%. The growth in the historic period can be attributed to increasing prevalence of gastroesophageal reflux disease (gerd), aging population, increased awareness and screening programs, obesity epidemic, tobacco and alcohol consumption.

Growth Driver Of The Barrett's Esophagus Market

A high rate of obesity is expected to propel the growth of the barrett esophagus market going forward. Obesity is a complex condition characterized by the excessive accumulation of body fat, leading to a higher body weight. Obesity is associated with an increased risk of developing

Barrett's esophagus, a condition in which the lining of the esophagus changes due to prolonged exposure to stomach acid. The excess weight and abdominal fat in obesity contribute to gastroesophageal reflux disease (GERD), which, over time, can lead to Barrett's esophagus.

Geographical Insights: North America Leading The Market

North America was the largest region in the barrett's esophagus market in 2023. Asia-Pacific is expected to be the fastest-growing region during the forecast period, driven by expanding healthcare facilities and increasing awareness of the benefits of barrett's esophagus.

Barrett's Esophagus Market Definition

Barrett's esophagus is the medical term for a condition in which acid reflux harms the flat pink lining of the swallowing tube, which connects the mouth to the stomach. This affects the lining, causing it to thicken and turn red. Barrett's esophagus is more resistant to stomach acid than squamous cells and intestinal cells, indicating that tissue alterations take place to shield the esophagus from acid exposure. This illness affects men more often than women and white people.

Barrett's Esophagus Global Market Report 2024 from [THE BUSINESS RESEARCH COMPANY](#) covers the following information:

- Market size data for the forecast period: Historical and Future
