He called for peace, brotherhood, and collective action, stressing the importance of moving forward together to address global challenges and promote development and welfare for all. Peace, unity and harmony are at the core of various philosophies in India which has long history of embracing various religions and traditions. The ancient Indian concept of 'Vasudhaiva Kutumbakam,' translates to 'the world is one family,' underlining India's commitment to global unity. For this, PM Modi has always emphasized the need to shift from individualistic thinking to a collective 'One Family' mindset and support one another, sharing experiences, and building a global support system to promote harmony and cooperation by uniting countries against common challenges such as climate change, economic inequality, and social unrest".

Modi is leading with this motto and this is the practical necessity of the world today this spiritual insight of unity of humanity because it's exactly that unity that we need to overcome our divisions and work together to protect one planet that gives us all life, the gift of creator, One Family One Future and I am so grateful to be able to support that message that India is carrying for all of us."

He is an extraordinary man with an extraordinary force behind him. He has a lot of people hoping for that he is going to help underprivileged. No leader has ever before, not in India, not anywhere else, crossed barriers and dealt with them like PM Modi has done; he is breaking them all on every level. It would be wise for people globally to support his concept of One Family One World One planet. I bow down to the courage of PM Modi."

Dr Neeta Jain, Founder & President of International Ahimsa Foundation and representative of Jain Community in New York, said, "Our foundation promotes Ahimsa (non-violence) especially in our young children because they are our future as our Prime Minister Narendra Modi also believes in our future generation. I resonate with our honorable Prime Minister Narendra Modi Ji's vision and belief of Akhand Bharat means that entire India is united and one nation and he believes in the ancient Indian wisdom of Vasudhaiva Kutumbakam that the whole world is one

family; every single country of this world is one family. What connects Jains with Modi ji is his attitude, his actions, his behaviour and what we believe in pluralism. Modi ji is himself is a big example of that. What is doing around the world and the country shows he is a big follower of Jainism. Everybody knows that Modi ji practices Jainism in his everyday life and he really believes in Ahimsa (non-violence). Ahimsa or non-violence is the supreme religion. He believes in that and that is the only way to bring the whole world together under one umbrella."

Praising PM Modi for the spreading the message of universal brotherhood and harmony world over, Former Executive World Bank, Gurcharan Singh said, "It was indeed a very delightful experience to watch the video here at Times square NYC that showcased the unparalleled developmental works done by PM Modi. PM Modi has said that all communities must celebrate Parkash Purab of Guru Nanak Dev Ji, this shows his love, respect and deep affection for Sikhism and Sikh Gurus. All Sikhs of USA are with Modi Ji."
